

About Our Client

Our client is a Nigeria-based technology consulting firm delivering full-stack fintech and commerce platforms for clients across remittance, merchant payments, POS, and eCommerce. Our client's current engagements include KlemRemit (a cross-border money movement app and API), KlemPay (a merchant, agent and POS payment platform expanding into global multi-scheme card acquiring, with gateway partnerships spanning Cybersource and Mastercard Payment Gateway Services), and KlemStore (an eCommerce, storefront and payment gateway platform). We are growing our team to deliver these products across a coordinated 12-month build.

Graphic Designer

Location: Lagos, Nigeria (Hybrid) — remote candidates within Nigeria considered

Engagement: Full-time / Contract — initial 12-month project engagement

Reports To: Head of Technology Development & Innovation

About the Role

You will create visual assets and brand collateral supporting our client's product launches and marketing across KlemRemit, KlemPay and KlemStore — from app store assets and social creatives to pitch decks and merchant-facing marketing material.

Key Responsibilities

- Design marketing and brand assets: social media graphics, app store screenshots/banners, email templates and website graphics
- Create presentation templates and slide decks for pitches, investor updates and partner proposals
- Design print and digital collateral for merchant onboarding, POS terminal branding and in-store signage
- Support product teams with icons, illustrations and visual assets for app and web interfaces
- Maintain and evolve brand guidelines (logo usage, color, typography) across KlemRemit, KlemPay and KlemStore
- Collaborate with the product designer and marketing on campaign creative
- Prepare export-ready files for print and digital production
- Manage multiple design requests and deadlines across products

Required Skills & Experience

- 2-3+ years experience as a Graphic Designer, ideally with brand or marketing design experience
- Strong portfolio spanning digital and print design
- Proficiency in Adobe Creative Suite (Photoshop, Illustrator, InDesign) and/or Figma/Canva
- Strong typography, layout and color skills
- Experience creating presentation/pitch deck designs
- Ability to work within brand guidelines while bringing creative ideas
- Comfortable managing multiple projects and quick turnarounds

Nice to Have

- Experience designing for fintech/payments or retail/eCommerce brands
- Basic motion graphics or short-form video editing skills
- Experience with print production (POS signage, merchant collateral)
- Familiarity with PowerPoint/Word template design

How to Apply

Send your CV, portfolio link and a short note on relevant fintech/commerce design experience to careers@bcodestech.com, with the role title in the subject line.
